

GOLDBERG BROTHERS

BARN DOOR HARDWARE

DOOR ROLLER GUIDES

Customize your barn door with a high-quality Goldberg Brothers roller guide. The bracket mounts to the wall or baseboard with supplied woods screws. Only the felt and rubber come in contact with the door. Unlike a T-Guide, these roller guides do not require a mortised slot along the bottom of the door. Choose from 7 available configurations:

		SKU 6001GRSF1	<p>¾" roller with felt and 3" bracket #1</p> <ul style="list-style-type: none"> Adjustable for 1¼" to 1¾" doors Laser-cut steel bracket (3"×2"×1½") Matte Black Texture powder coating Nylon roller with rubber band Adhesive-backed felt pad
