- ¼" Spacers (4/8)
- Track stops (2)
- ¼" Spacer (8/16)
- ¾" x 3½" Hex head bolts (5)

Goldberg Brothers barn door track and hardware sets come with a one-year manufacturer's warranty for defective parts under normal installation and use. Warranty is subject to repair or replacement of defective components at manufacturer’s discretion and does not include installation costs.

Goldberg Brothers does not warrant any products installed and used outdoors or where they are exposed to weather, running water or water condensation. Under these conditions, rust and other damage will naturally occur.

With the exception of our stainless steel products, Goldberg Brothers does not warrant any products installed and used outdoors or where they are exposed to weather, running water or water condensation. Under these conditions, rust and other damage will naturally occur.

This warranty does not include loss or defects caused by elements outside the control of Goldberg Brothers, such as natural disasters, weather, fire, water leakage, abuse, improper installation, or anything else deemed out of the control of Goldberg Brothers.
To install the hanger, insert the provided ¼" hex head lag bolts through the hanger on the front of the item as shown.

Center your track over the window as shown, then proceed to install as instructed below.

Using the provided hex lag bolt, track, track stop and spacer, connect each end of the track to the wall. Using the remaining hardware finish attaching the track.

Note: The track should be installed a minimum of 1¾” above the window to ensure the roller has clearance.

Once the ¼” hex head lag bolts are through the item, hang the shutter from the track in your desired position and continue to install the lag bolt so it goes into the wall.

Note: Use the spacer chart on the front to complete the install.
