Door Prep and Hanger Installation

Place the top mount hangers ⅛” from both sides of the top half of the door. The centerline should be 3”.

Using the T-guide screws, attach the top mount hangers to the door as shown in the diagram.

Note: Due to varying door thicknesses, make sure the back of the hanger aligns with the back of the door.

In the closed position, the door should overlap the wall a minimum of ⅛” at the top and a minimum of ⅛” on both sides.

The edge of the door should align with the end of the track.

Plumb the door before fastening door guide to floor.

T-guide Installation

Using the T-guide screws, attach the T-guide to the floor by aligning the edge of the guide with the edge of finished opening as shown above.

Goldberg Brothers barn door track and hardware sets come with a one-year manufacturer’s warranty for defective parts under normal installation and use. Warranty is subject to repair or replacement of defective components at manufacturer’s discretion and does not include installation costs.

Goldberg Brothers does not warrant the loss of finish at points where roller is in contact with track. Goldberg Barn Track is sold as a rustic finished hardware and Goldberg does not warrant the imperfections seen through the finish in steel parts. It is part of the look.

Track Installation

Mark the centerline* of the track on the wall using a level.

*The centerline of the Track is represented as the door height (DH) +1⅛" above finished floor.

At each of the track connecting points, drill ⅛" pilot holes followed by ¼" pilot holes.

Using the stop cap, stop spacers, and stop bolt, attach the stop as shown in the diagram.

Using a hex lag bolt, track, spacer and washer, connect one end of the track to the wall using the pre-drilled hole closest to the opening as shown in the diagram.

NOTE: The end of the track should extend a minimum of ½" past the door opening as noted above.

Lift the door and hang it from the track.

Swing the track to the opposite end of the wall as shown.

Using the same method as before, connect the opposite end of the track to the wall.

Using the remaining hex lag bolts, spacers and washers, finish attaching the track at the remaining connecting points.

FINISHED FLOOR

### Optional Accessories

#### Wall Extension Bolts Set
Includes 6 lag bolts and 6 wall spacers

#### Track Connecting Plate
1 each
Part #6005C

#### Door Guide "U"
1 set
Includes 2 "U" guides, 2 wood screws and 1 felt pad
Part #6005S

NOTE: Use the provided T-guide wood screws for U-guide installation.

#### Sidewall Guide Bracket
1 each
Includes 1 bracket, 4 machine screws, 4 nuts and 1 felt pad
Part #6005SSW

NOTE: Use the provided T-guide wood screws for side wall guide installation.

#### Soft Stop
1 set
Includes 2 Soft Stop mechanisms, 2 triggers and 4 wood screws
Part #6005SSTOP (10'-7' track)
Part #6005SSTOP17 (18' track)
