GOLDBERG BROTHERS, INC.
Stainless Steel Top Mount - Installation Instructions
for J hardware set 60050HJ

Included Hardware

- Top mount hangers (2)
- Top mount screws (8)
- T-guide (1)
- T-guide screws (2)
- Washers (6)
- Hex lag bolts (6)
- Spacers (6)
- Track stops (2)
- Felt Pad (1)

Basic Install Layouts

- Standard Hardware Pack installed with no casing, base, or other trim.
- Standard Hardware Pack installed on track trim board that is equal to or thicker than casing, base, or other trim.
- Standard Hardware Pack + ½” Extension Kit installed where casing, base, or other trim is up to ½” thick.
- Standard Hardware Pack + ½” or 1½” Extension Kit installed where casing, base, or other trim is greater than ½”.

Door Prep and Hanger Installation

Place the top mount hangers ¾” from both sides of the top half of the door. The centerline should be 3”.

Using the top mount screws, attach the top mount hangers to the door as shown in the diagram.

Note: Due to varying door thicknesses, make sure the back of the hanger aligns with the back of the door.

T-guide Installation

Using the T-guide screws, attach the T-guide to the floor by aligning the edge of the guide with the edge of finished opening as shown above.

Plumb the door before fastening door guide to floor.

Goldberg Brothers barn door track and hardware sets come with a one-year manufacturer’s warranty for defective parts under normal installation and use. Warranty is subject to repair or replacement of defective components at manufacturer’s discretion and does not include installation costs.

Goldberg Brothers does not warrant the loss of finish at points where roller is in contact with track. Goldberg Barn Track is sold as a rustic finished hardware and Goldberg does not warrant the imperfections seen through the finish in the steel parts. It is part of the look.

With the exception of our stainless steel products, Goldberg Brothers does not warrant any products installed and used outdoors or where they are exposed to weather, running water or water condensation. Under these conditions, rust and other damage will naturally occur.

This warranty does not include loss or defects caused by elements outside the control of Goldberg Brothers, Inc., such as natural disasters, weather, fire, water leakage, abuse, improper installation, or anything else deemed out of the control of Goldberg Brothers, Inc.
Track Installation

**Track Centerline**

Mark the centerline* of the track on the wall using a level.

*The centerline of the Track is represented as the door height (DH) +1¼" above finished floor.

At each of the track connecting points, drill ¼" pilot holes followed by ¼" pilot holes.

FINISHED FLOOR

Using the stop cap, stop spacers, and stop bolt, attach the stop as shown in the diagram.

Using a hex lag bolt, track, spacer and washer, connect one end of the track to the wall using the pre-drilled hole closest to the opening as shown in the diagram.

NOTE: The end of the track should extend a minimum of ¼" past the door opening as noted above.

**Optional Accessories**

- **Wall Extension Bolts Set**
  - Includes 6 lag bolts and 6 wall spacers
