

# GOLDBERG BROTHERS

## BARN DOOR HARDWARE

# BARN DOOR SIZING TABLE

### MP SERIES SINGLE-DOOR CONFIGURATIONS

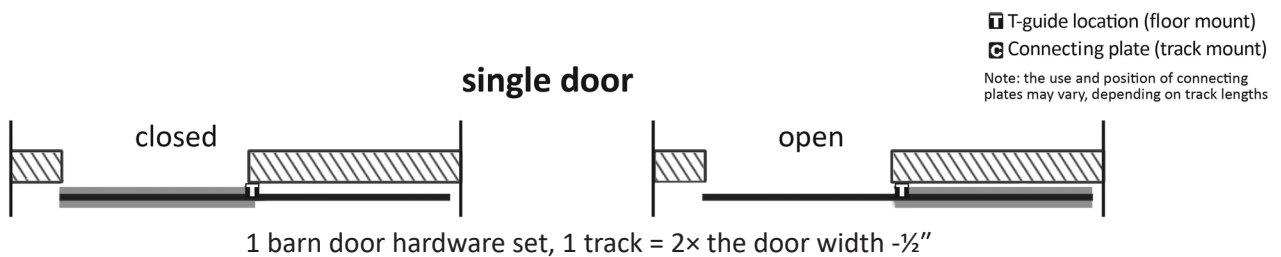

- The door should be at least as tall as the height of the finished opening.
- The door should be at least 1" wider than the finished opening to allow an overlap of at least ½" on each side when closed.
- The net\* track length should be double the door width minus ½" or 1" in order to keep the bottom edge of the door engaged with the door guide on the floor. If necessary, you can place a special order for a track longer than you need and have it custom-cut at our factory.

Use the table below to match the recommended door panel width with the corresponding maximum opening width and track length. The column on the right indicates the minimum hardware required, including the catalog number of the corresponding track in our MP Series product line.

Any track more than 8' long can be substituted with two or more shorter tracks, plus a wall mounting kit and a track connecting plate for each additional track. This substitution may reduce the overall expense, due to the potentially high cost of shipping long parcels.

door width	maximum finished opening width	net* track length	minimum MP Series hardware required†
1'6"	17"	35½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T4 with custom cut to 35½"</li> </ul>
1'8"	19"	39½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T4 with custom cut to 39½"</li> </ul>
2'0"	23"	47½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T4</li> </ul>
2'4"	27"	55½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T48</li> </ul>
2'6"	29"	59½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T5</li> </ul>
2'8"	31"	63½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T54</li> </ul>
2'10"	33"	67½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T6 with custom cut to 67½"</li> </ul>
3'0"	35"	71½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T6</li> </ul>
3'6"	41"	83½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T7</li> </ul>
4'0"	47"	95½"	<ul style="list-style-type: none"> <li>• any MP Series hardware set</li> <li>• track 6008T8</li> </ul>

TABLE CONTINUES ON NEXT PAGE

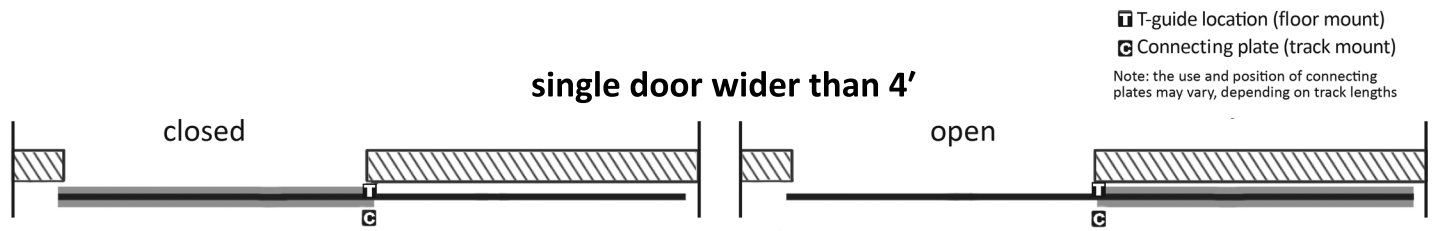

\*For correct fit and performance, we make our MP Series tracks ½" shorter than their nominal length. For example, a 6008T4 track has a nominal length of 4', but a net length of 3'11½". This helps keep the door properly positioned above the door guide when using the most common door sizes.

†Some custom installations may require additional or different items not listed. Optional accessories such as door pulls and Soft Stop are sold separately.

## MP SERIES SINGLE-DOOR CONFIGURATIONS (continued)

door width	maximum finished opening width	net* track length	minimum MP Series hardware required†
